

3000

The figure is a 10x10 grid of colored squares. The colors represent values, with a scale from dark blue (low) to bright yellow (high). The highest values are concentrated in the top-left quadrant, specifically in the first three rows and first four columns, where several squares are bright yellow. The values generally decrease towards the bottom-right corner, with most squares in the bottom half being dark blue or light blue.
